

Sunshades & Louvers

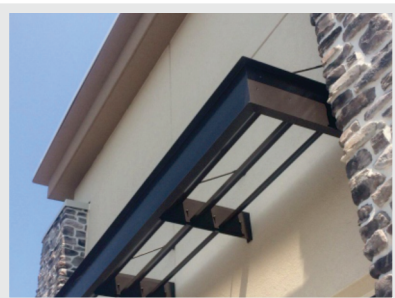

Sunshades are an attractive means to obstruct undesired sun and heat gain while allowing natural light into your building.

Sunshade louvers add an attractive design element to your building.

Numerous blade shapes, blade spacings, and trim profiles allow a design to suite your project requirements.

This product delivers optimum energy performance without compromising aesthetics.

From entrances and framing systems to windows and curtain wall systems, DCI Signs offers strong and versatile solutions that reduce energy demand and environmental impact — conserving valuable natural resources.
